Lithia, Florida 33547**

August 16, 2007

Dear Mr. Kishel,

Johnson Bros. has been a part of our Treasure Island community for the past few years while our bridge project has been underway. Now that completion is here, we would like to extend our thanks to your company for a job well done.

Your employees, under the direction of John Meagher, are a real asset to you. They worked diligently in many adverse weather conditions and restricted construction zones to finish this job on time. It is amazing to us that such a small number of men could accomplish this feat.

As Treasure Island residents, we would like to extend our gratitude to each and every one of your fine employees.

Sincerely,

Bill and Barbara Blush
