EDWIN W. EDWARDS
GOVERNOR

June 26, 1992

JUDE W. P. PATIN
SECRETARY

TO WHOM IT MAY CONCERN:

This will advise that I am familiar with work quality of Johnson Brothers Corporation in Heavy, Highway, Street, and Bridge Construction since 1978.

Johnson Brothers Corporation completed construction on several multi-million dollar projects under my supervision including approaches to the Greater New Orleans Bridge, Lower Algiers Cut-Off Canal Bridge, Earhart Expressway, Interstate 310, Interstate 10 Painting and Repairs, and other smaller projects.

My business contacts with Mr. Jack Sehlin and Mr. Bernie Sincavage have been professional and enjoyable. Johnson Brothers Corporation project superintendents have performed their duties and responsibilities in a courteous, efficient manner and have demanded quality work in road and bridge construction.

During my contact with this company, I observed that all contract disputes or differences in interpretation of specifications were resolved in a professional, business-like atmosphere. I highly recommend Johnson Brothers Corporation in the field of roadway and bridge construction.

Further information will be provided by contacting me at (504) 231-4131.

Very truly yours,

W. T. TAYLOR, JR., P.E.
DISTRICT ENGINEER ADMINISTRATOR
