

# EXPANSION UPDATE:

## JOHNSON BROTHERS CORPORATION

A long-standing and dedicated partner of Give Kids The World, Johnson Brothers Corporation brings the experience and expertise needed to complete some of the infrastructure of an expanded Village.

Give Kids The World has been privileged to partner with Johnson Brothers for many years, dating back to the World of Wonders expansion (WOW) in the late 1990's. It was an easy decision for the company to work with the Village again on the latest expansion.

Last fall, Johnson Brothers worked tirelessly to complete the underground storm, sanitary and water work needed before construction on the new family villas could begin. In addition, Johnson Brothers has assisted the Village by identifying and introducing new companies and partnerships to help meet other critical expansion needs.

This January, in honor of the proud partnership Johnson Brothers has with the Village, the company even dedicated a page to Give Kids The World in its 2008 calendar.

JOHNSON

BROS.®

Nearly two years after it was announced, Give Kids The World's Fairy Tale Forest project continues to take form. Upon completion, twenty-one new castle and cottage-themed villas will help GKTW provide accommodations for 7,500 families each year. Only through the unwavering support and commitment of generous local construction companies can these villas be completed. Two such partnering companies are Johnson Brothers Corporation, and Modern Plumbing Industries, Inc.

## MODERN PLUMBING INDUSTRIES, INC.

Modern Plumbing Industries, Inc. has been a partner with Give Kids The World for more than a decade. One of Central Florida's premier plumbing contractors, Modern Plumbing has already completed installation of the underground plumbing for the first seven villas, and has committed to completing the project by supplying all plumbing labor for the rest of the Fairy Tale Forest.

Give Kids The World thanks Johnson Brothers Corporation and Modern Plumbing Industries, Inc., along with all of our other devoted partners for their continued participation and effort as we work together to expand our Village.
